

Alan R Guibord

CEO and Chairman selects Mary Ann to address private group of Global CIO'S with on-going Coaching...

Rapid Engineered Mind (REM) a new approach to leadership

Please join me in an engaging teleconference with Mary Ann McIlraith, a TAC expert in leadership. Mary Ann has developed a unique approach to leadership from a holistic, life-based perspective.

Find out if the blue-print for your life that you are following is actually the one you really think it is and how can it help transform all parts of your life.

Join Mary Ann and I for an interactive discussion. It might change the way you think about yourself.

I will be sending you the call in information as we get closer to the session.

Mary Ann McIlraith

Over 20 years experience in information technology, human resources, and organizational development. She covers the complete human capital management (HCM) implementation project and leadership life-cycle. Mary Ann is on the Technical Advisory Council for Human Capital Management and the Software Industry, past board member and author for IHRIM, and past board member of ASTD. She is the developer of the Rapid Implementation Methodology (RIM).

Regards,
Al
